

## II HARP INTERNATIONAL WORKSHOP

# Arpa Horta DE LLEIDA

2013

## THE WORKSHOP

**The International Workshop Arpa Horta de Lleida** aims to unite the qualities of a magical instrument with the wealth of an agricultural landscape.

The workshop will develop over a four-year cycle which will permit the participants to discover the different phases of a place changing over time. Each year will involve an intensive week-long course with Isabelle Perrin, one of today's most renowned harpists - and Maria Lluïsa Ibáñez - a great pedagogue and Catalan harpist and Bart Loomans, Dutch physiotherapist with an exceptional knowledge especially in bad postural harpists habits .

Like the cycle of life, the workshop will begin in the spring of the first year, shift to the summer in the second year, autumn in the third year, and end in the winter of the fourth year.

The cycle will allow participants to experience the passage of time through music and nature. It will show the relationship between agri-culture and music-culture, between time and space, between sound and silence.
